INTRODUCTION

Our story on two wheels originated 55 years ago in the four wheels of a blue Mini Cooper. In 1964, the van der Straten family began an adventure that has lasted more than five decades. Since its arrival in the MotoGP World Championship in 2010, Team Estrella Galicia 0,0 MarcVDS has been fighting tirelessly to achieve its dreams. Under the banner of effort, the search for excellence and work well done, the team has competed in all categories: Moto3, Moto2, MotoGP and MotoE. Over 100 podiums and three Moto2 World Championships (2014, 2017 and 2019) prove their past track record and future aspirations.

After finishing fifth in the first edition of the FIM ENEL MotoE World Cup, the team and star rider Mike Di Meglio are looking to build on the experience gained last season to make a title challenge a reality from day one.

Working and enjoying even more than as a team, as a family, to gift our supporters with the best performance and motorcycling show.

/// OUR
RIDER

/// MIKE
DI MEGLIO

NATIONALITY: French
BIRTH PLACE: Toulouse, France
DATE OF BIRTH: January 17, 1988

HEIGHT: 1,71 m
WEIGHT: 70 kg
HOBBIES: Cycling

BIOGRAPHY

Mike di Meglio was one of 18 riders who starred in the pioneering FIM Enel MotoE World Cup. The Frenchman faced this new challenge after a long and successful career in the MotoGP World Championship.

He made his debut in the 125cc class in 2003 where he spent six seasons. He rode Honda, Aprilia and Derbi machinery and it was the latter on which he became 125cc World Champion in 2008.

The following year he rode a 250cc Aprilia and finished eighth overall.

He stayed in the intermediate category in 2010 when it switched from 250cc two-strokes to four-stroke 600cc power in 2010 and spent four seasons in Moto2 before switching to MotoGP in 2014 with Avintia.

In 2015, he remained with the same team but on different machinery and he campaigned that season on board a Ducati in what would be his last season in the top class.

His took up a MotoGP test riding role during 2016, 2017 and 2018 and he also continued racing in the World Endurance Championship winning. A notable success was victory in the 2017 running of the prestigious Bol d'Or. In 2019, he combined his participation in the FIM Enel MotoE World Cup, where he finished fifth with two podiums and one victory, with another challenge in the FIM Endurance World Championship. In 2020, the Frenchman will compete for glory in both series again.
